

These screenshots show the sequence of how a new applicant creates a person account and starts an application in GradSlate. Using the URL [gradapply.uga.edu/apply/](https://gradapply.uga.edu/apply/) takes an anonymous user to this page:

Clicking on [Create an account](#) under First-time users results in:

Both email address and birthdate will be used for further verification later in the process. Clicking Continue takes the user to a login page:

The email with the PIN is sent to the email address provided on the previous page:

Thank you for registering online with University of Georgia Graduate School.

To activate your account, please use the link below:

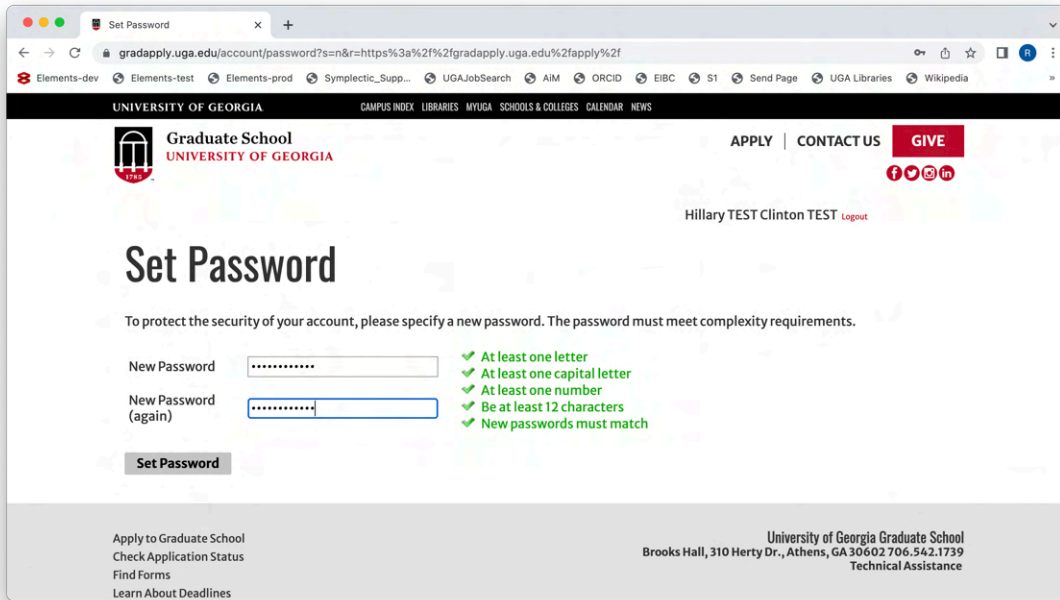

[Activate Account](#)

When requested for a password, enter the following temporary PIN:

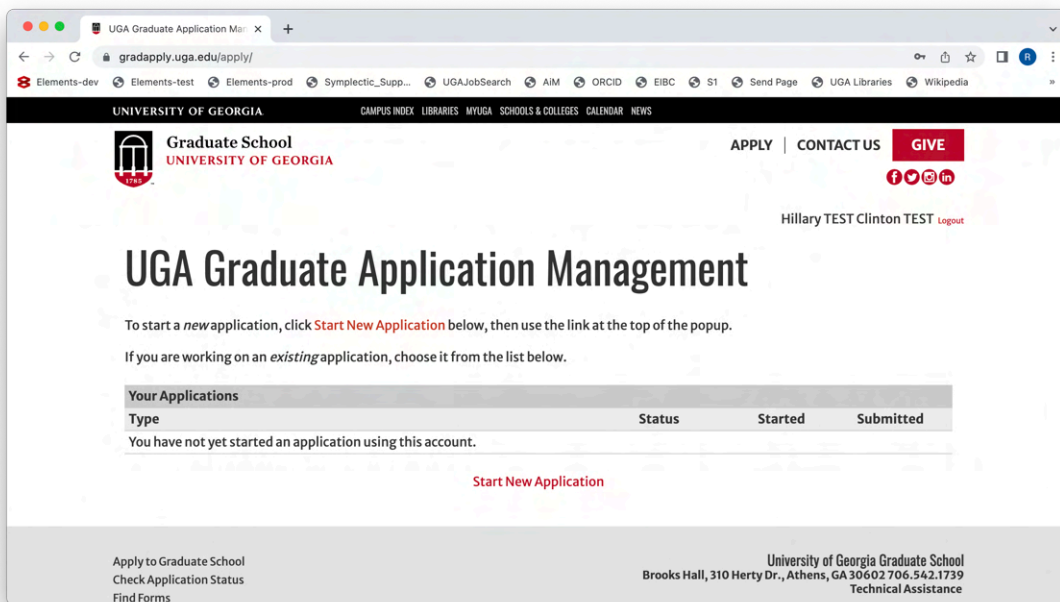

**377899671**

University of Georgia Graduate School

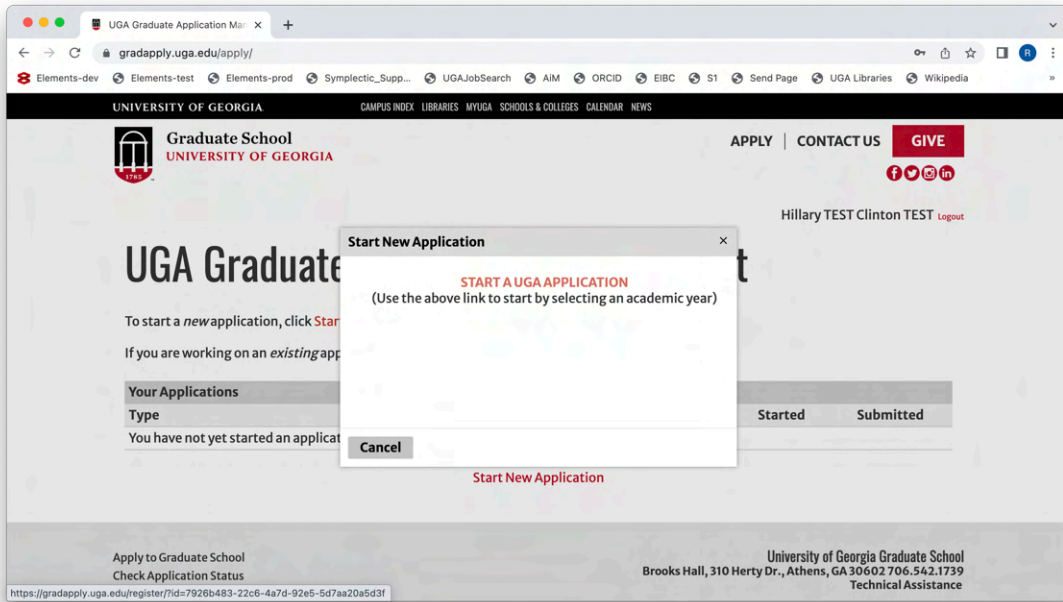

Filling in this PIN and repeating the birthdate originally submitted leads to password setting:

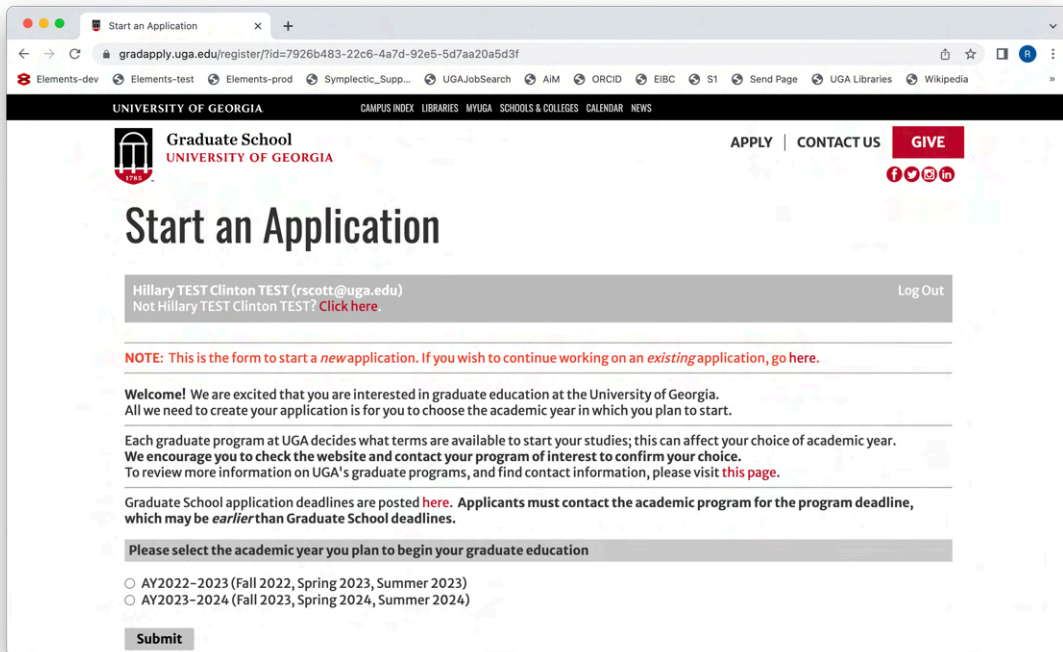

With person authentication set, clicking Set Password takes the applicant back to the app management page:

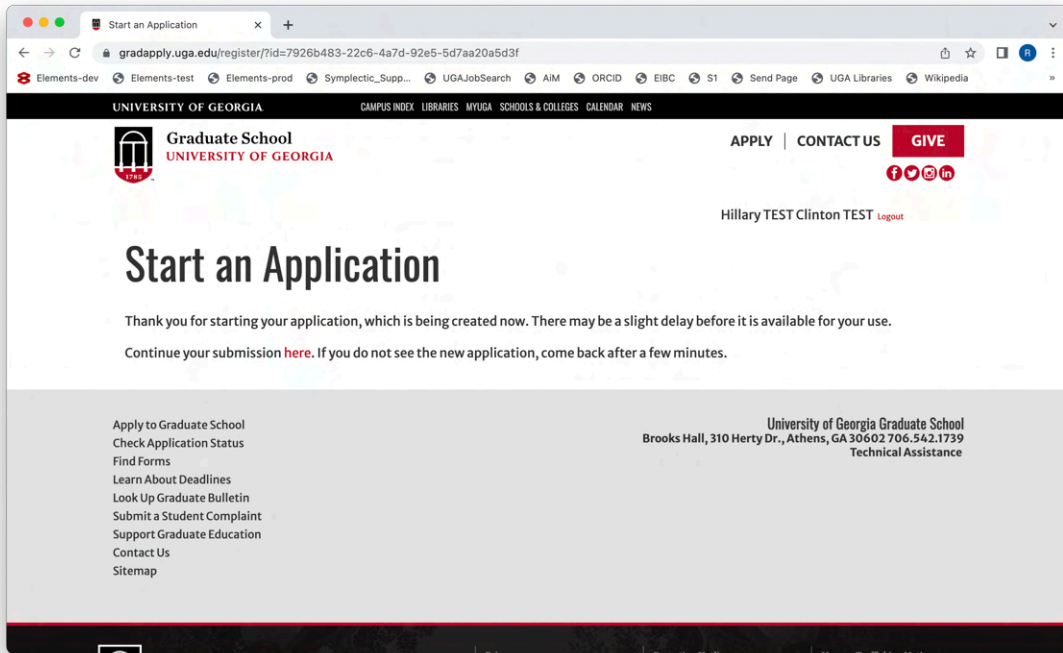

Clicking on **Start New Application** at the bottom of the screen opens a popup ...

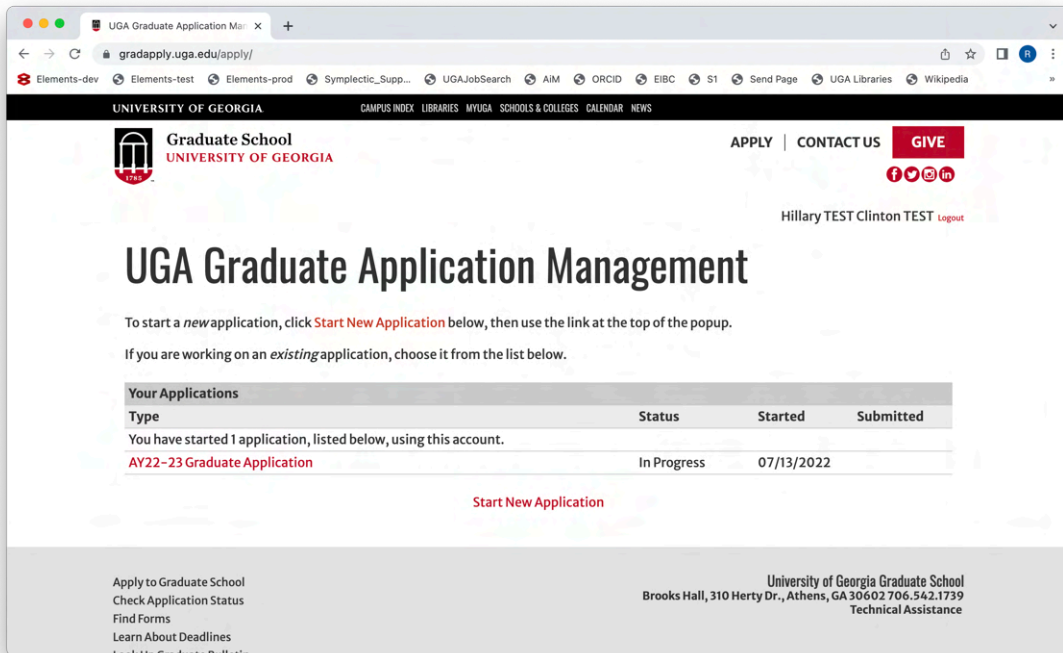

... on which clicking **START A UGA APPLICATION** takes the applicant to the Start an Application form:

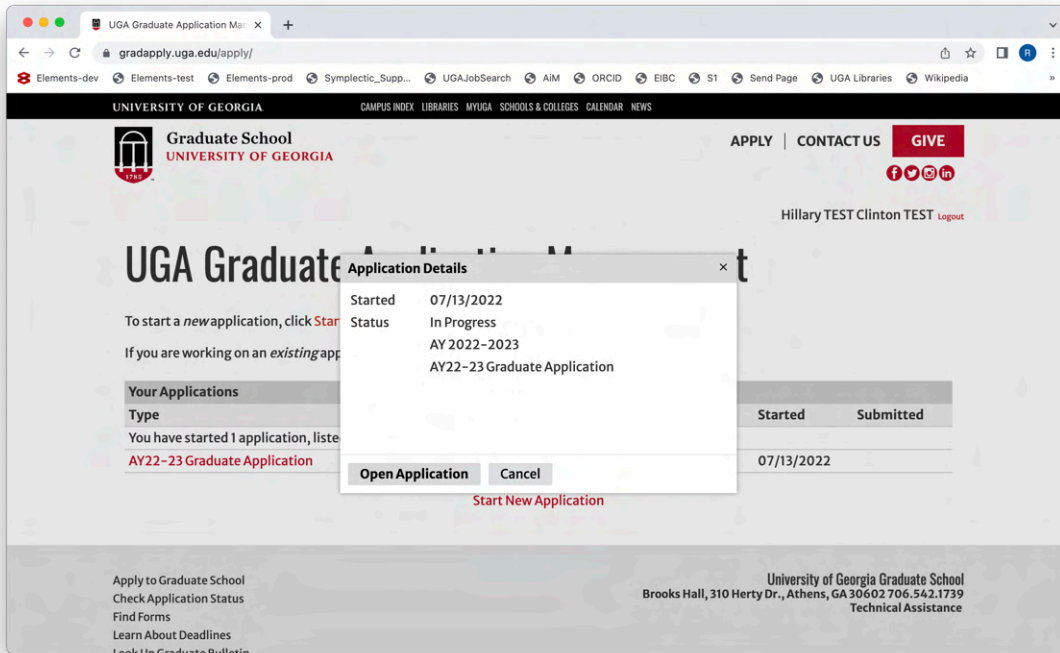

Once an academic year is chosen, clicking Submit displays a confirmation message with a link back to the app management page:

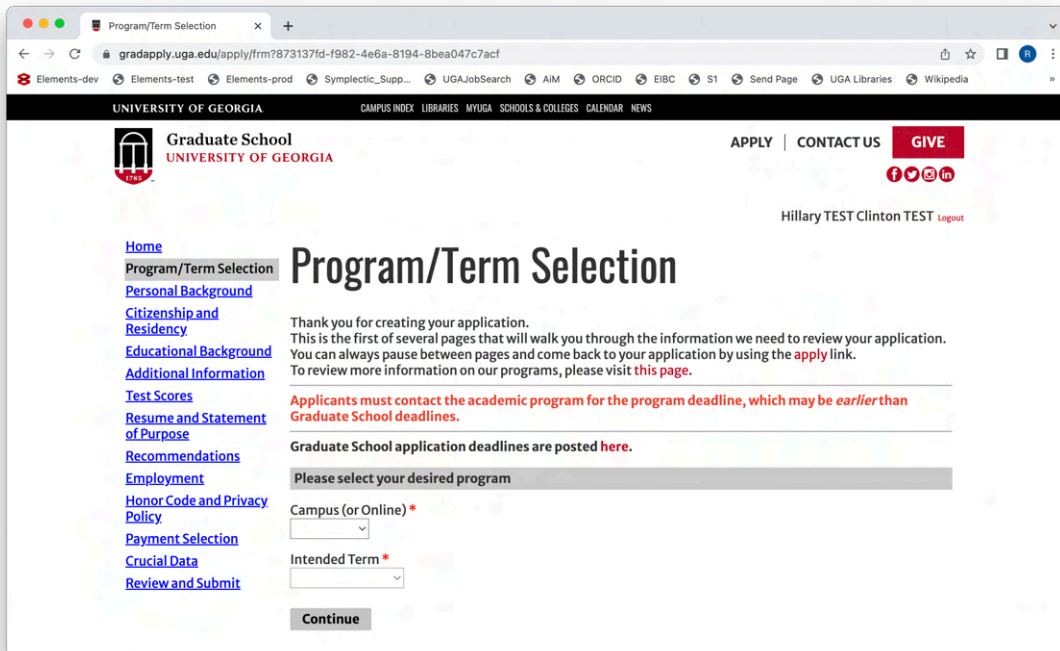

Clicking on [here](#) takes the applicant back to their list of current applications in which the newly created application should appear:

Clicking on the application ([AY22-23 Graduate Application](#)) generates a popup with a link to start completing the application:

Click the **Open Application** button and the applicant starts on Application page 1 (Program/Term Selection):

Once the Intended Program and Intended Term are selected and Continue is clicked, the application tab on the person record will be renamed for term and program (e.g., FA21 – PHD\_ILSC).
